 - “We hope you are doing well. In our previous member gathering we discussed getting training from UofT’s sexual violence support center on sexual violence disclosure skills. The training will be conducted over zoom and last approximately 90-120 min. It will equip participants with knowledge, resources, and skills to support survivors when receiving a disclosure of sexual violence. We are hoping to complete the training within the next few weeks. If you’re able and interested, please indicate your availability through this poll: <https://doodle.com/poll/w7qf5vvny2b4ku7b>
 - Please respond as soon as possible because we do need to submit a request form to the sexual violence support center in advance. For more information on the outcomes and topics covered in the training follow this link: <https://www.svpscentre.utoronto.ca/learn/training/>

Thank you!”
