Feedback on Online Survey

- An overview of how the online survey went and the quality of the questions were discussed.

Sustainability Events

- Most events are quite short - should we make the meetings into videos?
    - The videos are around 5 minutes
- Aim to have more interesting talks
- Share every post on sustainability on AVSSU instagram
    - To ensure a lot of people reach the events
- Passive events seem to work better

- Like watching a movie
- Low pressure
- Interactive enough where you're taking the attention by watching the film
- If you have a low turnout, don't be discouraged!
    - It takes time for people to catch on
    - That's still great!

De-stressor Week - Event on Friday

- Have multiple events throughout the week
- Similar events before finals or reading week next semester
- We should increase the amount of events in the next semester
    - Make sure to reach people on instagram and also people who signed up for the event
- More interaction is needed
    - Movie night, dance night, chilling etc.
- De-stressor week should have something different everyday
    - Something to look forward to
- More programming is needed
    - Timeline of the event
- Cooking with AVSSU can be an idea

Organization of Tasks

- Check in midweek - Thursday
- Thumbs down/thumbs up system:

1. After each meeting, I'll copy and paste the task list I've made (also available on the top part of the minutes)
2. After one week, I'll send a message listing the tasks and @ the person assigned on this group chat
3. If the person is done with their tasks they can react with "👍" to my message
4. If they haven't or there's been any problems they can react with "👎" to my message
5. If you don't want to share your problems in the group chat, you can directly message me so we can bring it up on the next meeting

- Doodle poll for meetings next semester
- In 2 weeks
    - December 20th
