 - b. In order to advertise, we should talk to professors and ask them to advertise it and talk to their students about sending in work
 - c. More Ideas:
 - i. Reps can ask for permission to post people's work on the spot (during class or in studio). Be sure to credit the work properly.
 - d. Highlight people's work on a daily basis in a very casual way (IG story)
 - e. Instagram story takeover to get a peak into the daily life of being in that specific stream and seeing what people work on.
